TOPIC WEEK EUROPE
31 May – 5 June 2017

Welcome to Lutherstadt Wittenberg!

Welcome to the World Reformation Exhibition! During the #Reformationssommer 2017, everyone will come together at the place where it all began 500 years ago...

Reformation means shaping the future. What are the issues that are changing and preoccupying our societies? Does the Reformation idea serve as a model for meeting present and future challenges...

The open-air exhibition is under the heading 'Gates of Freedom' – symbolizing the gates pushed open by the Reformation. Just as Martin Luther in 1517 challenged the circumstances of his time...

Gathered here are representatives of international institutions and organizations, churches from all over the world, initiatives, and many cultural workers...

Each of the 16 weeks follows a particular theme, and has attracted inspiring speakers and public figures to Wittenberg. Join in the celebrations of this special anniversary in the #Reformationssommer!

Gate 1: Welcome

Upon arriving in Lutherstadt Wittenberg main station you will enter the Welcome gate area. Here you will get an immediate impression of the World Reformation Exhibition...

Gate 4: Justice, Peace and Integrity of Creation

Just north of the city centre you can take a stroll around the Swan Pond. The refugee boat installation offers a moving backdrop and raises current issues about asylum and migration...

Gate 5: Globalization | One World

A variety of regional, national and international initiatives present themselves in a landscape of transparent glass cubes. Discuss the current challenges of globalization...

Gate 6: Ecumenism and Religion

Hundreds of trees in the Luther Garden, set out in the form of the Luther rose, form the heart of the sixth Gate area. The House of One offers room for Jews, Christians and Muslims...
